Subject: Hurricane Harvey - Victoria County Follow-up Information

Dear Mr. McBrayer and Mr. Gonzales,

Thank you for your time during our recent visit to Victoria County Emergency Management on Friday, September 8. Michelle Kerr and I wanted to provide some follow-up information pertaining to our discussions that may address your concerns regarding the clean-up phase of the response to Hurricane Harvey.

During our meeting, you indicated that you would be interested in information concerning mold and mildew remediation in private residences affected by the flood, septic systems and the disinfection of private wells.

U.S. EPA has prepared some informational documents to help address these concerns. They are attached to this email. Feel free to make copies to distribute as you see fit.

If you have any additional concerns, I can be reached at the number below. Michelle can be reached by calling 312-886-8961.

Again, thank you for taking the time to meet with us during this emergency response to Hurricane Harvey.

Sincerely,

Carol Ropski
